

Low Stress Stock Handling Workshops

with Chook Kealey

These two-day workshops will change the way you see and handle your stock resulting in economic benefit in the kilos gained.

In two short days achieve calm and confident management of livestock in all situations. Under the guidance of expert trainer Chook Kealey, attendees will learn how to promote harmony between man and animal in the working environment. These workshops are suited for all ages and experience levels; including highly competent stockpeople.

To learn more about Chook Kealey, or these workshops contact FBA's Land Management Officer Meg Anderson.
