

RCS Grazing Clinic

Understand grass growth

Refresh the basics

Manage your time and system better

The RCS Grazing Clinic is a practical hands-on workshop that develops your skills as a grass manager.

This power-packed two day clinic will have you walking away with the confidence and practical know-how to go home and begin implementing.

- ✓ **Practical knowledge** – get the latest on cheap fencing, property layout, water design and moving stock. Understand how to assess rest period and calculate graze period, while accurately matching stocking rate to carrying capacity. See and learn the decision making processes **in the paddock**.
- ✓ **Control your grazing outcomes** – through the practical application of the principles, active use of the grazing chart, good use of the planning tools and good property design for this century.
- ✓ **Refresh the basics** through understanding the 6 essential grazing management principles. Develop the skills to monitor and record changes, understand how to adapt to seasonal and climate variability and develop strategies for profitable property planning and overall improved grazing management.

The course has a complete focus on implementation. We deal with the “real life stuff” that actually counts when it comes to getting the most out of your land, livestock and business.

“The course was very suited to my needs in the future regarding grazing management. The material was excellent.”

– Andrew Hufton (Harden, NSW)

“It was necessary revision for me. Our grazing and application of the principles had got off track. It will help me maximise production while improving our soil.”

– Brian Pownall, Leichhardt Station (Dysart, Qld)

Blackwater International Coal Centre, Qld: 21-23 May 2019

Special price: \$250 incl. GST per person

GRAZING BMP
BEST MANAGEMENT PRACTICES

fba
FITZROY BASIN ASSOCIATION

Grazing BMP is owned by an alliance of AgForce Queensland Farmers, Fitzroy Basin Association Inc. and the State of Queensland acting through the Department of Agriculture and Fisheries. Grazing BMP is a voluntary self-assessment program that allows graziers to benchmark their current practices against industry standards, identify improved practices and determine the steps they need to take to incorporate best management practices into their enterprise to improve their long-term profitability and sustainability. Funded by the Queensland Government Reef Water Quality Program.
