As my inaugural year as Chair for FBA draws to a close, I become increasingly proud of the organisation and still continue to learn after seven years involvement on the Board.

I have been continually impressed by all the work behind the scenes to make on-ground achievements happen. A dynamic environment nurtures innovation — and watching how FBA adapts is compelling to observe.

A personal highlight for me has been watching the region respond to the rich quality of workshops and presenters. It demonstrates landholders are keen to innovate, learn and take hold of opportunities to diversify and improve.

Sean Conaghan

Chair

As a grazier myself, FBA's strong reputation and allegiance to our industry was a driving factor in my decision to join the Board. I am extremely proud to fully comprehend the passion that underpins our team and our work.

It has been another big year, highlighted by Joel Salatin presentations across the region. I congratulate the team for their day-to-day commitment towards a sustainable future for central Queensland.

FBA has a proud history in adapting and overcoming to meet strategic goals. It is with great pride that in FBA's 21st year, I form part of the leadership team ready to deliver on another year of exciting prospects.

Another impressive year for FBA began with the appointment of a new Chairman of the Board. Sean had been a Board member for seven years, and was very familiar with our operations, so the transition has been seamless.

Significant changes to the service delivery model took effect on I July 2018. The Board's ongoing commitment to a greater return-oninvestment and increased accountability saw FBA enter a new phase with our greatest ever on-ground presence. We sincerely thank our delivery partners for many prosperous years, and look forward to working alongside you into the future in an adapted capacity. The timing for this transformation comes as key projects finish and new ventures begin. The conclusion of four largescale projects that FBA
have worked on since 2013
instigate a period of reflection
and transparency. Each of
these projects have exceeded
expectations and their legacy
has imprinted every reach
of the region. Combined,
they have delivered an
extraordinary 9.6% reduction
in sediment load entering the
Great Barrier Reef lagoon
from our catchment.

Looking ahead, we will review the CQSS: 2030 plan, commence major streambank restoration projects and continue to work with landholders at Best Management Practice workshops.

I am pleased to be leading our team into the next phase of the FBA history with continued enthusiasm and excitement. May the incoming year be full of great highlights and achievements.

Paul B

Paul Birch
Chief Executive Officer

"I was watching this beautiful tall green grass on the side of the road and thinking how productive and prolific and vegetated it was and right across the fence in the fields it's flogged out—and my heart breaks for that.

And it turns out the hearts of the FBA folk breaks for that too—we are desperate for land healing."

Reaching land managers responsible for

898,931ha of land

with attendees from as far as New Zealand, Adelaide and Atherton Tablelands

"This award was great recognition for the work that myself and FBA put into my gully erosion project. FBA have helped me through their project funding to build new on farm infrastructure (fences and water), which has helped me greatly with the grazing management of my cattle property.

I would recommend talking to FBA as they have some great opportunities for training and on ground project funding".

Dan Bishop was recognised as a 2017 Reef Champion for reducing sediment run-off from his property. Modelling estimates his land management practices saves 123 tonnes of sediment washing off his property every year since working with FBA.

CELEBRATE

"The resilience and adaptability of CQ graziers is impressive. I'm so grateful to FBA for giving me the opportunity to put all my acquired knowledge into action."

Erin BaldwinFBA Project Officer

Erin was FBA's first Reef Extension graduate, as funded by the Queensland Government and Oueensland Farmers Federation.

LONG TERM SUCCESS

30 June 2018 marked the conclusion of several long-term projects led by FBA. Combined, these projects have left an enduring legacy in every corner of our 156 000km² region.

This map illustrates the breadth of work delivered by FBA with funding from the Australian Government.
