Wowan, Wycarbah and Baralaba Landcare members are invited to join a Chemical Distribution Control Course. Attendees will gain chemical control skills targeted at reducing local agricultural weeds and diseases.

### Topics include

- ✓ What your Workplace Health and Safety requirements are and how to meet them
- ✓ How to gain access to registered and restricted chemicals
- ✓ Transporting, storing and handling chemicals safely
- ✓ How to keep accurate chemical use records
- ✓ Calibrating equipment safely

### TH9 Outdoor Services

TH9 Outdoor Services assists organisations to manage invasive plants, invasive animals and other land management issues, through training.

### Trainer: Belinda Callanan

Biosecurity and Land Management Consultant, Trainer and Assessor

All Nationally Accredited Training is offered by Registered Training Organisation Millettia Solutions Pty Ltd (RTO 45172) with TH9 Outdoor Services acting as a co-provider.

### Education units:

- AHCCH304 - Transport and Store Chemicals
- AHCCH307 - Prepare and Apply Chemicals to Control Pests Weeds and Diseases
- AHCPMG301 - Control Weeds

This program is supported by Fitzroy Basin Association through funding from the Australian Government's National Landcare Program and Lendlease Foundation Community Grants Program.

These are COVIDSafe events, health declarations and risk assessments will be completed prior to meeting.
