

Dinner Discussions

The connection between farming and health

During this exclusive evening event, Dr Gundi Rhoades will join local producer and vet Dr Cherie Gooding to discuss how healthy ecosystems foster healthy people.

Dr Gundi and Dr Cherie are both vets, mothers, and passionate about the connection between soil and human health. Cherie is a local (from Biloela) and Gundi, originally from Germany, has been living in rural NSW for 30 years. During this evening event, Gundi and Cherie will share their deep understanding of the agriculture industry as well as the health effects associated with chemicals in farming.

Dr Gundi Rhoades
Practice Owner of
Gowrie Vet Clinic

Dr Cherie Gooding

If you're serious about food or farming
this is the perfect event for you!

This event is a part of FBA's Farming for the Future Forum.

The three-day event has been purposely created for central Queensland farmers who want to improve their pasture, soil and animal health.
