FBA works closely with local people to deliver solutions for a healthy environment. Learn more about FBA's services at fba.org.au

The FBA Flow Centre is an educational facility designed to be used by locals to support environmental content delivery.

The Centre has an innovative design, with multiple interactive displays providing snippets about the region, its unique plants, animals, industries, communities and habitats.

This session will allow local educators a unique opportunity to explore the centre and discuss with guest presenters how we can work together to increase environmental awareness and regional citizen science.

GUEST PRESENTERS

Brooke Lacey
Fitzroy Basin Association
Science Engagement Officer

Leigh Stitz
Fitzroy Partnership for River Health
Executive Director

Allan Briggs
BirdLife Capricornia
Secretary and CQ Community Champion

Bethlea Bell
Fitzroy Basin Association
Community Participation Officer

Sophie Wilkins
Fitzroy Basin Association

EXCITE

Over the past two decades FBA has worked closely with our local community to achieve many outstanding results. Explore these epic stories and celebrate the big wins we have obtained for our amazing natural assets.

EXPLORE

- 3D models
- Touch screens
- Augmented reality
- Life-sized maps
- Endangered species
- Catchment simulator
- ... and so much more!

EXPERIENCE

Change the way you see the natural assets that surround you!

Through our interactive panels explore the Fitzroy region from mountain tops to ocean bed and everything in between!

EMPOWER

The interactive Flow space aims to inspire our local community to care for, take action and create positive change for our region's natural resources.

Australian Government

This workshop is funded by the Australian Government and supported by Fitzroy Basin Association.
