- Managing biosecurity
- Automation of repetitive tasks
- Management of livestock and grazing systems
- Reduction of inputs for improved precision/cost reduction
- Opportunities for diversification of producer income

SAM FRYER, CATTLEMAN QLD
ALUMNI 2021-22

The F2F program has been an incredible experience. I have learnt so much in such a short time and have created a bond with fellow participants that we will share going into the future.

SKYKELPIE, LUKE CHAPLAIN
BEEF PRODUCER, QLD

Luke applied to the program to explore an idea to develop an unmanned aerial vehicle (UAV) for the movement and muster of livestock.

AUSCRIMPER,
CHARLIE & AIME LANGE
MIXED ENTERPRISE FARMER, QLD

Had the idea to manufacture a cover crop crimper roller to knock down cover crops without using chemicals.

Not sure it's the right program for you?

Book a call with us and discuss your idea and we can help point you in the right direction!
