

Hands-on Regenerative Farming Event

Two-day cover crops, soil health and biological fertiliser workshop

Get your hands dirty and make your own biological fertiliser with experts Grant Sims and Matt Marshall. Experience the benefits of healthy soil and discuss how you can have the same results on your property.

Learn

- ✓ How to improve the life and function of soil through biology
- ✓ How biological liquid fertiliser is made and applied
- ✓ How to use cover crops, companion crops and discover the benefits of multispecies crops

Guest speakers

Grant Sims

NO-TILL PRODUCER

Grant Sims runs a farm in north central Victoria. In 2015 Grant was awarded the Coles Weekly Times Farmer of the Year. Grant is the current president of the Victorian No Till Farmers Association and performs on-farm trials to improve the soil for the next generation.

Matt Marshall

CQ PRIMARY PRODUCER

Matt is passionate about improving soil health to increase production. The Marshall Family makes and applies their own bio fertiliser. Matt has witnessed many benefits from implementing no till, cover crops and bio fertiliser on their central Queensland property.

This project is funded by the Australian Government's Reef Trust with support from Fitzroy Basin Association.

Day 1
Monday 6 March

8am - 4pm
