Learn how to protect native species on your patch, whether it's 2ha or 2,000ha! Everything you need to know about establishing or managing natural assets or nature refuges in CQ. Chat to likeminded land managers and get your questions answered by industry authorities.

Learn about...

- ✓ Pest management (plants and animals)
 - ✓ Managing a nature refuge
 - ✓ Fire management
 - ✓ Vegetation management (updated exemptions and clearing codes)
 - ✓ Carbon farming - the benefits and regional opportunities
 - ✓ Local threatened ecosystems and their successful management
 - ✓ Pest animal trapping demonstration
 - ✓ Weed control and native plant ID
 - ✓ Species recovery after natural disaster
 - ✓ **Available resources and funding opportunities**
- ... and heaps more!

Got a Question?

This is your chance to chat to representatives from FBA, Ecosure, The Department of Environment and Science, Queensland Parks and Wildlife, RegenCo and other industry experts.

Queensland
Government

This initiative is delivered through Queensland Government's Private Protected Area Program with support from Ecosure and Fitzroy Basin Association.
